A number of factors are taken into consideration when we choose the investment options for the Investment Booklet.

These include the performance of the investment option, the investment objective, fees, liquidity, external research ratings and how easy the investment option is to administer.

You should ensure that you receive from your Financial Advisor the most recent List of Available Investments before you complete the Application Form. In addition, your Financial Advisor should give you a Product Disclosure Statement (PDS) or other relevant disclosure document for each product you invest in.

## 3 How Loyalty Wealth - Investments works cont

### SAVINGS PLAN

Our Savings Plan facility allows you to make regular deposits to your account. An initial \$5,000 is required and regular amounts of no less than \$250 each month must be made. That amount can be automatically deducted from your bank or financial institution account each month (normally on or about the 20th of each month) and credited to your investor account. If you wish to cease making regular deposits, you may advise Loyalty Wealth - Investments at any time in writing to stop direct debiting from your bank account.

### ACCESSING YOUR MONEY

You can request a partial or full withdrawal from your account at any time.

If you'd like to make regular withdrawals, you can set up a Cash Withdrawal Plan.

You'll generally receive your money within 30 days. However, it may take longer if any of your investments are, or become, illiquid.

The length of time it takes to process your withdrawal will depend on the relevant investment and/or investment manager.

Withdrawal payments will only be made to the account holder. Payments will not be made to third and other parties.

### WITHDRAWAL RIGHTS

Your investments are held indirectly on behalf of the Operator by an external Custodian, and your ability to withdraw your investments may be different to your ability to withdraw if you invested directly. The PDS for wholesale investments may differ from retail investments for similar products.

Where an underlying fund restricts withdrawals, the payment you are entitled to receive may be scaled back as payments could be pro-rated across all investors in the relevant fund.

### VOTING

It is the policy of the Operator not to exercise any voting rights attached to assets held through Loyalty Wealth - Investments.

### COOLING OFF RIGHTS

You have cooling off rights in relation to initial investments. If you decide within the first 14 days after your investment is received by Loyalty Wealth - Investments not to keep it with Loyalty Wealth - Investments then you can withdraw it and have any fees that have been paid, refunded.

The amount repaid will be adjusted by net investment earnings or losses, and transaction costs. There may also be capital gains tax implications. Any request for cancellation must be made in writing and received by Loyalty Wealth - Investments within 14 days after receiving your investment.

This right does not apply to switches, distribution reinvestments or where you have exercised a right in respect of the investment (e.g. made a switch or a partial withdrawal).

# 5 How investing in Loyalty Wealth - Investments is different from investing directly

INVESTING THROUGH LOYALTY WEALTH - INVESTMENTS	INVESTING DIRECTLY
<p><b>Access to managed funds and managed portfolios</b>            You have access to: a wide range of researched managed funds at wholesale prices which are not readily available to retail investors (and generally have lower fees than retail managed funds); managed share portfolios; and, an administration service for directly held shares.</p>	<p><b>Access usually limited to managed funds at higher retail prices and securities that are to be managed directly by you</b>            You would normally only have access to managed funds at retail prices unless you have large sums of money to invest. Also, you will need to research and constantly monitor the investments you make directly in funds or shares.</p>
<p><b>Beneficial ownership of your investments</b>            You retain ownership of your holdings in managed funds, term deposits and listed securities which are held in safekeeping by an external Custodian as our agent. Loyalty Wealth - Investments keeps all transactional, tax and valuation records of these assets which makes it convenient for you to manage and monitor performance.</p>	<p><b>Direct ownership of your investments</b>            Since you are the owner of your holdings and acquire all rights attaching to ownership, you should receive all relevant communications directly, and all tax, transactional and valuation records must be managed and maintained by you.</p>
<p><b>Consolidated reporting</b>            Loyalty Wealth - Investments will provide you on a quarterly basis a single comprehensive consolidated report with relevant details on all your investments. This is available online and you can review it daily.</p>	<p><b>Reporting is not consolidated</b>            You are likely to receive separate information at different times on each of your investments and you will need to consolidate them and maintain them for tax and other personal obligations.</p>
<p><b>Voting rights</b>            There is no obligation on us to vote, exercise any right, or participate in any schemes, proposals or corporate actions (such as rights issues, takeovers or restructures) on managed funds or listed securities in your account.</p>	<p><b>Voting rights</b>            Since you are the registered owner, it will be your own decision to participate in any schemes, proposals or corporate actions affecting your investments.</p>
<p><b>Limited withdrawal rights</b>            Where underlying wholesale funds restrict withdrawals, your entitlement to withdrawals may also be restricted. (See section 3).</p>	<p><b>Withdrawal rights</b>            As you are the registered owner, you hold all relevant withdrawal rights, but if the retail fund restricts withdrawals, your ability to withdraw your money may also be restricted.</p>
<p><b>No communications from product issuers</b>            As Loyalty Wealth - Investments holds the managed funds and listed securities on your behalf, you will not normally receive communications, such as annual or other reports, notices of meetings, or notification of changes in investment policies and fees, from the product issuers. You can obtain this information by requesting Loyalty Wealth - Investments to provide the information you require. If you do instruct Loyalty Wealth - Investments to provide this information, we reserve the right to charge a fee for doing so. The charge will not exceed the reasonable cost of giving the information. This charge would be deducted from your account. Your Financial Advisor may be able to assist you.</p>	<p><b>Regular communications from product issuers</b>            You will receive communications directly from fund managers and listed companies including annual reports, notices of meetings and notification of any changes to policies, fees etc. which you will have to maintain and manage yourself.</p>
<p><b>Cooling-off rights</b>            Loyalty Wealth - Investments provides a cooling off period to its investors (see section 3), even while other similar services may not.</p>	<p><b>Cooling-off rights</b>            If you are a retail client you may be entitled to a 14-day cooling-off period with respect to your retail managed funds. If you exercise your right within the cooling-off period, you may have your application money returned (subject to certain fees and costs and other conditions imposed by the funds).</p>

# 6 What are the significant risks?

**BEFORE YOU CONSIDER JOINING LOYALTY WEALTH - INVESTMENTS, YOU SHOULD UNDERSTAND THE RISKS THAT MAY AFFECT YOUR INVESTMENTS.**

**THERE ARE RISKS INVOLVED IN INVESTING THROUGH LOYALTY WEALTH - INVESTMENTS AS WELL AS THE SPECIFIC RISKS THAT ARE ASSOCIATED WITH YOUR CHOSEN INVESTMENTS.**

## NON-INVESTMENT RELATED RISKS

### Operational & Transaction Risk

Delays in buying and selling investments may occur if a transaction request is not fully completed or signed. In addition, system failures may cause delays in processing transactions and reporting on your account.

You are required to hold 3% of the value of your assets in your Cash Account. A cash rebalance is run on your account from time to time. Where your Cash Account holding falls below 1% other investments will be sold in accordance with your Automatic Redemption Order to top up the Cash Account and maintain a 3% cash balance.

### Agent Risk

There are risks of using an agent to transact on your behalf. You will be responsible for all acts and omissions of your agent where you have authorised them to act on your behalf.

### Legal & Regulatory Risk

There is a risk that laws (including taxation laws and legislation governing the operation of Loyalty Wealth - Investments) may change in the future and may adversely affect your investment.

### Custodian Risk

Investments in Loyalty Wealth - Investments are held in the name of the Operator, Custodian or Sub-Custodian. This means that there is a risk that the Operator, Custodian or Sub-Custodian fails to adequately segregate property for the benefit of the investor.

## INVESTMENT RELATED RISKS

### • Investment Risk

The value of investments is likely to be affected by a wide range of variable factors, which include economic influences such as economic growth in the domestic Australian economy and the major international and emerging economies, the movement of interest rates and inflation, the level of consumer and investor confidence, exchange rate movements, monetary and fiscal policy initiatives, corporate profitability and individual investment manager decision making.

### • Market Risk

Market risk is essentially the risk of adverse market movement in any of the underlying markets in which an investment is held. Market risk can be driven by various factors including economic fundamental, and political or legislative developments.

### • Interest Rate Risk

Changes in interest rates can have a negative or positive impact either directly or indirectly on investment value or returns of all types of assets.

### • Security Specific Risk

Individual securities such as company shares, corporate bonds or even Government Bonds may be affected by changes in management practices, business activities or Government policies.

### • Currency Risk

Investment in international assets implies that there is risk of the Australian Dollar value of investments rising or falling due to exchange rate movements. This may adversely or positively affect your investments.

### • Fund Manager Risk

Potential risks to fund managers include that key individual managers or analysts could leave their employer or that fees and expenses could rise.

### • Fund May be Closed

Funds that are not receiving sufficient inflows may be closed to new investments or possibly terminated.

### • Liquidity Risk

An underlying investment may become illiquid and affect an investor's ability to sell that investment at a particular time.

### • Gearing Risk

If an investor borrows to invest, this may magnify the effect of gains and losses on an investment portfolio. Investors should discuss this risk with their Financial Advisor.

### • Taxation Risk

Any investment decision will have tax consequences and may also have social security and stamp duty consequences, depending on your individual circumstances. Generally, each financial year you are liable to pay tax on any capital gains arising upon disposal of your investment, interest, distributions, dividends or other income from your investments (even if reinvested). You may be entitled to some rebates or tax credits. You should seek appropriate advice before you transact in any assets.

**Important:** When choosing your investments, it is important to consider the level of risk with a particular investment, the likely investment return and your investment timeframe. Your Financial Advisor can help you establish your investment profile to suit your needs and objectives.

# 8 Fees & costs

## DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns. For example, total annual fees and costs of 2% pa of your account balance rather than 1% pa could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000). You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs. You may be able to negotiate to pay lower administration fees. Ask Loyalty Wealth - Investments or your Financial Advisor.

## TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website ([www.moneysmart.gov.au](http://www.moneysmart.gov.au)) has an investment fee calculator to help you check out different fee options.

## FEES AND OTHER COSTS

This section shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of Loyalty Wealth - Investments as a whole.

Taxes are set out in another part of this document.

You should read all the information about fees and costs because it is important to understand their impact on your investment in Loyalty Wealth - Investments.

The total fees and costs you will pay include the costs of Loyalty Wealth - Investments as well as the costs of any investment options you choose. It is important that you understand the fees of any investment options you choose, which are in addition to the fees we charge.

For detailed information about the fees and costs associated with any particular investment option, ask your Financial Advisor for a copy of the relevant investment option PDS or disclosure document. You may negotiate and agree the level of all Financial Planning and Advisor Service Fees with your Financial Advisor at any time.

All fees are inclusive of GST less any reduced input tax credits (RITC) unless otherwise specified.

Fees and costs of particular investment options are set out in the Investment Booklet and in the underlying fund managers PDS'.

## INCREASES OR ALTERATIONS IN THE FEES AND COSTS

We reserve the right to increase the fees and costs outlined in this Guide, and to charge for other miscellaneous services. If any fees or costs increase, we will give you at least 30 days advance notice.

You should read the Additional Information booklet about Fees and Costs before making a decision. Go to <https://online2.fiducian.com.au/loyaltywealth>.

Material relating to Fees and Costs may change between the time you read this Guide and the day when you acquire the product.

<sup>1</sup> This example assumes that you do not undertake any transactions or investment switches during the period.

**Note:** Fees and Costs are calculated to 4 decimal places and rounded to 2

## ADDITIONAL EXPLANATION OF FEES AND COSTS – MANAGEMENT FEES AND COSTS

### Administration fee

This fee relates to the costs of administering your account by the Administrator and is paid to the Administrator under the administration agreement between the Administrator and the Operator (see below). This cost is calculated on a sliding scale from 0.29% (rounded to 2 decimal places) on the first \$250,000 of your account balance. The administration fee for your account is successively reduced on amounts above \$250,000, \$500,000, \$1,000,000 and \$2,500,000. The administration fee is deducted directly from your Cash Account at the end of each month and is based on your average account balance.

### Account fee

This fee relates to the costs of opening and maintaining your account and is paid to the Administrator under the administration agreement between the Administrator and the Operator at \$20.50 per month.

(or less 1.25% p.a. for wholesale clients). Where the crediting rate falls below 0% and there is a negative interest rate, the crediting rate will be zero. The difference between the rate negotiated with the banks and the crediting rate of up to 0.85% (up to 1.00% for Wholesale Investors) will be retained by the Administrator for services it provides in relation to the management of the arrangements for the investment of money held in the Cash Account. The monies in the Cash Account are predominantly held in an Australia and New Zealand Banking Group Limited (ANZ) (ABN 11 005 357 522) omnibus bank account (except to the extent necessary to facilitate your investment instructions).
