LOYALTY WEALTH ACCOUNT BASED PENSION

LOYALTY WEALTH TERM ALLOCATED PENSION (TAP)

A TAP is a market linked income stream with a defined term, established before 20 September 2007 using your superannuation savings. Those savings are used to pay you regular income (pension) each year until the set term of your TAP expires. The term of the TAP can be less than your life expectancy, which means it may not provide you with regular income stream for the rest of your life.

The Loyalty Wealth TAP service is only open to rollovers from other complying income streams such as another TAP.

The table on the next page sets out the TAP payment factors.

SOCIAL SECURITY ASSESSMENT OF LOYALTY WEALTH TERM ALLOCATED PENSION

Only 50% of your account balance is counted as an assessable asset under the Social Security Assets Test if you are commencing a new Loyalty Wealth TAP either:

- from the full commutation and rollover of another TAP that commenced before 20 September 2007; OR
- as the reversionary beneficiary of an existing Loyalty Wealth TAP member.

The annual pension payment less the deductible amount is counted as income under the Social Security Income Test. The deductible amount is calculated as the purchase price divided by the term of the pension.

For more information about TAPs, please contact your Financial Advisor.

HOW CAN I CONSOLIDATE MY SUPER?

Many people have more than one super fund and consequently are likely to be paying more fees due to multiple accounts. By consolidating all your super into Loyalty Wealth - Superannuation, you may reduce the amount of fees you are paying and have the convenience of just one super fund to monitor and make contributions. Please see your Financial Advisor for details on how best to consolidate your accounts.

You may take your benefit in either a lump sum or you may elect to transfer your benefit to a Loyalty Wealth - Superannuation Account Based Pension (including Non-Commutable), or another complying superannuation or pension fund.

You suffer a terminal medical condition if the following circumstances exist:

For more information please contact your Financial Advisor or go to www.ato.gov.au/Individuals/Super.

CASH ACCOUNT

Each account includes a Cash Account, which is held by the Trustee in an omnibus bank account with the Australia and New Zealand Banking Group Limited ('ANZ') (ABN 11 005 357 522) into which your application moneys, investment income and redemption proceeds are paid. You earn interest on your Cash Account based on your average balance held during the month. We will not withdraw the moneys held in this account from the ANZ bank account except at your direction.

Under an agreement between the Trustee and the Administrator, investors will receive a minimum crediting rate equal to the Reserve Bank of Australia target cash rate (which is the market rate on overnight funds) less 0.5% p.a. The difference between the rate negotiated with the banks and the crediting rate of up to 0.85% will be retained by the Fiducian Group for services it provides in relation to the management of the arrangements for the investment of money held in the Cash Account. The monies in the Cash Account are predominantly held in an Australia and New Zealand Banking Group Limited (ANZ) (ABN 11 005 357 522) bank account (except to the extent necessary to facilitate your investment instructions).

The Cash Account is held to receive contributions, rollovers, investment income and proceeds of asset sales, and to pay for investments, pensions, withdrawals, charges, taxes and fees.

After deduction of any fee, 3% of the initial value of your account is retained in cash. Investments according to your instructions are made as soon as possible after cleared funds are available.

Distributions received from investments in Loyalty Managed Portfolios are automatically reinvested into the cash account of the portfolio from which the distribution was paid.

CASH RE-BALANCE

From time to time, a cash rebalance will be run on your account. If your Cash Account exceeds the cash target level of 3% of your total account balance and meets the applicable minimum investment amount, an investment is automatically made on your behalf in accordance with your recorded instructions. This is known as your Automatic Investment Selection.

Likewise, if your Cash Account balance falls below 1% of your total account balance, a redemption or sale from your investments is automatically made in accordance with your recorded instructions (and subject to various minimums), to restore the balance to the 3% level. This is known as your Automatic Redemption Order. You must make a valid Automatic Redemption order selection to establish your account.

Where Pension payments are being made, the balance in your Cash Account must provide for the standard 3% plus the upcoming payments. We process redemptions or sales approximately six weeks prior to the date of the pension payment to ensure that payment can be made on the due date.

SAVINGS PLAN

After you have established your account with the minimum of \$5,000 you can build it by regular savings. Amounts of at least \$100 per month can be paid by direct transfer from your financial institution. A Direct Debit Request form must be completed.

Investments through the Savings Plan are described in the How Your Money is Invested section. For instalments in Loyalty Managed Portfolios, at least \$1,000 per month must be applied to each investment selection. For example, to be invested immediately in 3 investment options, you need to be investing at least

\$3,000 per month, otherwise your monies will be placed in your Cash Account and invested in accordance with your Automatic Investment Selection when cash rebalance is next run, subject to applicable minimums.

Should you wish to cease the Savings Plan you must notify Loyalty Wealth - Superannuation in writing. If you do stop regular deposits but wish to resume, then a current Application Form must be completed and sent to Loyalty Wealth - Superannuation. You may also vary the monthly amount at any time (subject to the minimum amount being met).

SWITCHING

Subject to minimum investment conditions you have flexibility to change the investment options in your portfolio.

Any investment switch will generally be made by selling the tax parcels that result in the lowest gain (or a loss). Switching out of an investment is treated as a disposal for capital gains tax purposes, within Loyalty Wealth - Superannuation. We recommend you obtain independent tax advice.

NETTING OF INVESTMENTS

Instructions may be received to buy and sell investments in the same fund from different members through Loyalty Wealth - Superannuation. When this happens, Loyalty Wealth - Superannuation may offset the instructions so that only one net buy request or sell request is made to the relevant fund manager. This process of offset is called Netting. 'Netting' may reduce transaction costs and any benefit arising may be kept by FSL. This does not represent an additional cost to you.

WITHDRAWALS/REDEMPTIONS

A partial withdrawal must not reduce the balance in the following investments below the figures stated (other than where you are reducing your investment in an option to zero):

Managed Funds	\$N/A
Loyalty Index Plus (Auxilium) Managed Portfolios	\$5,000
Loyalty Core (Russell) Managed Portfolios	\$5,000
Loyalty Active (Watershed) Managed Portfolios	\$5,000
Loyalty Active Single Sector (Watershed) Managed Portfolios	\$5,000
Personal Share Administration Service	\$5,000

Where permitted by superannuation law, when you submit a request to withdraw funds from your account (provided minimums are satisfied), the Administrator places a request with the fund managers or broker to redeem the assets you have decided to sell.

You should note that some fund managers may take a longer period than others to pay the proceeds to Loyalty Wealth - Superannuation. In any single withdrawal, Loyalty Wealth - Superannuation must ensure that it has received the proceeds from all asset sales before making a payment to you.

Depending on the time of the year, for example, end of financial year, managed fund redemptions can take up to 30 business days to be received by Loyalty Wealth - Superannuation. However, proceeds from the fund manager are generally expected to be received within 10 business days.

Following receipt of the proceeds, Loyalty Wealth - Superannuation will normally make payment to you or your nominated rollover institution within 3 business days.

BINDING NOMINATION

Loyalty Wealth - Superannuation provides you with the opportunity to specifically nominate one or more eligible dependants to receive your superannuation benefits in the event of your death. Please contact your Financial Advisor for more information.

For this nomination to be binding (Binding Nomination) it must be:

- provided in writing;
- signed by you in the presence of 2 witnesses who are above the age of 18 and are not nominated as beneficiaries; and
- renewed every three years.

Eligible dependants are:

- your spouse¹;
- defacto spouse;
- child* (including an adopted child, a step-child, an ex-nuptial child or adult child);
- any person dependent on you for maintenance and support at the date of your death; and
- any person with whom you have an 'interdependency relationship' (see below) at your time of death.

* Where your superannuation benefit is used to purchase an income stream for an eligible child under 18, once the child reaches 25 years of age, the remaining pension balance must be paid in full as a lump sum.

¹ Your spouse includes:

- a) a person (whether of the same sex or a different sex) with whom you are in a relationship that is registered under certain State or Territory laws, or
- b) another person who, although not legally married to you, lives with you on a genuine domestic basis in a relationship as a couple.

Interdependency Relationship

Two people have an 'interdependency relationship' if the following requirements are met:

- they have a close personal relationship;
- they live together;
- one or each of them provides the other with financial support; and
- one or each of them provides the other with domestic support and personal care.

Notwithstanding these requirements, two persons who have a close personal relationship but fail one of the other requirements because one or both of them have a physical, intellectual or psychiatric disability will still be classed as having an interdependency relationship.

Where a valid Binding Nomination has been made, the Trustee must pay your benefit to the nominated beneficiaries on your death.

Important Note: When nominating a beneficiary you must nominate a dependant. However, someone who is a dependant under superannuation laws may not be a dependant under tax laws. For example, your 30 year old child is considered a dependant for superannuation purposes. However under tax laws, this child is a non-dependant (unless at the time of your death the child was financially dependent on you or you were in an interdependency relationship with the child). This means that whilst your child will be able to receive your superannuation lump sum, there could be tax payable on a portion of that benefit.

For more information and alternative strategies, we recommend you discuss this issue with your Financial Advisor.

See the table below for a list of superannuation and taxation dependants.

	SUPERANNUATION DEPENDANT	TAX DEPENDANT
Spouse	Yes	Yes
Spouse (separated)	Yes	Yes
Former Spouse	No	Yes
De-facto Spouse	Yes	Yes
Child under 18 (including ex-nuptial, adopted or step-child)	Yes	Yes
Child over 18 (not receiving support from parent)	Yes	No
Interdependency Relationship	Yes	Yes
Financial dependent person at time of death	Yes	Yes

WHAT IF I DON'T MAKE A BINDING NOMINATION?

If you do not make a binding nomination or if your nomination has not been renewed or is not valid for any reason then the Trustee may pay your account balance in whichever manner and proportion it sees fit to your legal personal representative or dependents.

CHANGES TO YOUR INVESTMENT STRATEGY ON DEATH

Upon receiving notification of your death, the Trustee will move the entirety of your account balance to the Cash Account. This change to the investment strategy aims to preserve your account balance for your beneficiaries.

The account balance will remain in the Cash Account until the death benefit is paid to your estate, a nominated beneficiary or in accordance with the discretion of the Trustee as permitted under superannuation law.

4 Risks of super

BEFORE YOU CONSIDER JOINING LOYALTY WEALTH - SUPERANNUATION, YOU SHOULD UNDERSTAND THE RISKS THAT MAY AFFECT YOUR INVESTMENTS.

THERE ARE RISKS INVOLVED IN INVESTING THROUGH LOYALTY WEALTH - SUPERANNUATION AS WELL AS THE SPECIFIC RISKS THAT ARE ASSOCIATED WITH YOUR CHOSEN INVESTMENTS.

NON-INVESTMENT RELATED RISKS

Operational & Transaction Risk

Delays in buying and selling investments may occur if a transaction request is not fully completed or signed. In addition, system failures may cause delays in processing transactions and reporting on your account.

You are required to hold 3% of the value of your assets in your Cash Account. A cash rebalance is run on your account from time to time. Where your Cash Account holding falls below 1% other investments will be sold in accordance with your Automatic Redemption Order to top up the Cash Account and maintain a 3% cash balance.

Agent Risk

There are risks of using an agent to transact on your behalf. You will be responsible for all acts and omissions of your agent where you have authorised them to act on your behalf.

Legal & Regulatory Risk

There is a risk that laws (including taxation laws and legislation governing the operation of Loyalty Wealth - Superannuation) may change in the future and may adversely affect your investment.

Custodian Risk

Investments in Loyalty Wealth - Superannuation are held in the name of the Trustee, Custodian or Sub-Custodian. This means that there is a risk that the Trustee, Custodian or Sub-Custodian fails to adequately segregate property for the benefit of the investor.

INVESTMENT RELATED RISKS

• Diversification

Diversification means spreading your investment across asset sectors to help reduce risk and minimise the impact of poor performing asset sectors, while allowing you to benefit from sectors that are performing well. By spreading your investment, it can help reduce the volatility in performance.

• Investment Risk

The value of investments is likely to be affected by a wide range of variable factors, which include economic influences such as economic growth in the domestic Australian economy and the major international and emerging economies, the movement of interest rates and inflation, the level of consumer and investor confidence, exchange rate movements, monetary and fiscal policy initiatives, corporate profitability and individual investment manager decision making.

• Market Risk

Market risk is essentially the risk of adverse market movement in any of the underlying markets in which an investment is held. Market risk can be driven by various factors including economic fundamental, and political or legislative developments.

• Interest Rate Risk

Changes in interest rates can have a negative or positive impact either directly or indirectly on investment value or returns of all types of assets.

• Security Specific Risk

Individual securities such as company shares, corporate bonds or even Government Bonds may be affected by changes in management practices, business activities or Government policies.

• Currency Risk

Investment in international assets implies that there is risk of the Australian Dollar value of investments rising or falling due to exchange rate movements. This may adversely or positively affect your investments.

• Fund Manager Risk

Potential risks to fund managers include that key individual managers or analysts could leave their employer or that fees and expenses could rise.

• Fund May be Closed

Funds that are not receiving sufficient inflows may be closed to new investments or possibly terminated.

• Liquidity Risk

An underlying investment may become illiquid and affect an investor's ability to sell that investment at a particular time.

INVESTMENT LIMITS

In observing its responsibilities and in line with the views of the regulatory authority (APRA), the Trustee may impose limits on the amount that may be invested in any investment option offered through Loyalty Wealth - Superannuation. Investment limits and subsequent changes may be imposed at any time if the Trustee feels that certain investment options are inherently risky and do not warrant you investing large proportions of your retirement savings in such investments. You may be informed of the limits and the funds to which they apply and the amount standing in excess of the limits may be invested in your nominated Automatic Investment Selection.

5 How we invest your money

The Trustee has considered investment options to offer diversification across investment funds, investment styles and investment managers. In approving each investment option, the Trustee has put in place procedures for the research, recommendation and approval of all investment options offered.

Loyalty Wealth - Superannuation provides sufficient diversification to cater for members in different phases of their life leading up to and after retirement.

For a full list of the available options please review the Investment Booklet, which forms part of this PDS.

INVESTMENT MENU SELECTION PROCESS

The Investment Menu selection process is based on a number of criteria. The criteria and timing of the assessment may vary. The Investment Menu is reviewed regularly, generally on a quarterly basis. Where the Trustee becomes aware that an investment on the Investment Menu requires reassessment, it may close the option to new investments where it deems appropriate. Where this occurs and you hold the investment, Loyalty Wealth - Superannuation will communicate this to you directly or via your Financial Advisor.

The following criteria are considered:

- **Operational** – This includes the liquidity of the investment (i.e. the ability to easily purchase/redeem the asset), the availability of pricing and performance data, the tax treatment and the ability of the product issuer to integrate with Loyalty Wealth - Superannuation's systems.
- **Demand** – To meet the changing needs of clients, the demand for products is assessed.

Other considerations may include the availability of independent research or any other factors that may result in the investment not meeting its stated objectives or otherwise not being manageable through our existing processes.

In adding or removing an investment to or from the Investment Menu, we take no liability for any movement in prices or costs in delays in adding or removing the investment nor do we make any representations as to the suitability of the investment either generally or for your personal circumstances.

MANAGING CONFLICTS OF INTEREST

The Trustee is part of a financial services group that participates in the domestic and international markets, so real and perceived conflicts of interest may arise when adding to or removing options from the Investment Menu. For example, a member of the Fiducian Group (Fiducian Investment Management Services Limited) acts as the responsible entity for a number of investments on the Investment Menu. There are policies on managing conflicts and these apply to the investment selection process.

The options available are:

LOYALTY MANAGED PORTFOLIOS

The Trustee has included in the Investment Menu the Loyalty Managed Portfolios which applies a structured research process to the selection of stocks that make up each portfolio.

When electing to invest in the Loyalty Managed Portfolios, the Trustee (on your behalf) will acquire an interest in each portfolio (or SMAs) that you select. That interest is held in the legal entity being the Fiducian SMA Fund ARSN 633 605 026 (a non-unitised fund) and the activities and investments of each portfolio are undertaken in this entity.

Fiducian Investment Management Services Limited (FIMS) is the responsible entity of the Fiducian SMA Fund and is part of the Fiducian Group of companies. FIMS is responsible for the operations of the Loyalty Managed Portfolios and has engaged third parties in the development and implementation of the SMAs offered through the Loyalty Managed Portfolios.

FIMS makes active asset allocation decisions within each portfolio, both between portfolios as well as between asset classes. These decisions are the result of strategic decisions on the basis of economic, market and option performance analysis.

Each Option holds a diverse basket of assets, from an appropriately diverse number of sectors and should there be an increased risk within any Option that there is a reduction in the tactical asset allocation to this exposure, a rebalance of individual portfolios may occur from time to time to align with the selected Option. Records are maintained of the timing of each member's investments (and disinvestments) and of relevant transaction prices. Thus, each member's investment exposure and performance is independent of the actions of other members, and the results of the Options are not averaged between investors as in a unit trust.

ADDITIONAL EXPLANATION OF FEES AND COSTS THAT MAY APPLY TO YOU

Administration Fee

This fee relates to the costs of administering your account by the Administrator and is paid to the Administrator under the administration agreement between the Administrator and the Trustee (see below). This cost is calculated on a sliding scale from 0.33% (rounded to 2 decimal places) on the first \$250,000 of your account balance. The administration fee for your account is successively reduced on amounts above \$250,000, \$500,000 and \$1,000,000. There is no fee for portion of the balance over \$2,500,000. The administration fee is deducted directly from your Cash Account at the end of each month and is based on your daily average account balance.

OTHER FEES AND COSTS

Costs that may be deducted directly from your account including the Operational Risk Reserve, regulatory cost recovery fee and other fees which are permitted upon your instruction, these include insurance premiums, advice related fees to your Financial Advisor and the Loyalty Managed Portfolios fees.

Operational Risk Reserve

From 1 July 2013, the Trustee is required to establish and maintain a financial reserve to address the risk of loss resulting from inadequate or failed internal processes, people and systems, or from external events. APRA Prudential Standard SPS 114 - Operational Risk Financial Requirement requires the Trustee to set a Target Amount that reflects the scale of possible losses having regard to its risk management framework, risk appetite, risk mitigation and controls.

To comply with the Prudential Standards, the Trustee has determined that an Operational Risk Reserve (ORR) will be held within Loyalty Wealth - Superannuation and that the Target Amount will be built and maintained from member's ORR contributions, such amounts to be determined by the Trustee and communicated to members when necessary.

The Trustee has determined that members will not be charged at this time to increase the size of the ORR. The Trustee may alter this position at any time. In the event that the Trustee wishes to recommence applying the ORR fee to members, it will communicate the increase in fees by providing at least 30 days notice prior to the change.

Regulatory Cost Recovery Fee

The Trustee is entitled to be reimbursed for a range of costs and expenses incurred in the operation of Loyalty Wealth - Superannuation. The Trust Deed for Loyalty Wealth - Superannuation lists the type of expenses that can be reimbursed to the Trustee.

The Trustee can only be reimbursed for expenses properly incurred in the operation of Loyalty Wealth - Superannuation including, for example, government levies, fees from external service providers such as auditors, lawyers and other professional service providers. These expenses will be paid on the Trustee's behalf by the Administrator who will be reimbursed this amount from Loyalty Wealth - Superannuation by way of the Regulatory Cost Recovery Fee. This is in addition to the Administration Fee and Expense Recovery Fee (see below).

Expense Reserve and Expense Recovery Fee

The Trustee is entitled to be reimbursed for expenses properly incurred in the operation of Loyalty Wealth - Superannuation. For this reason, the Trustee has established an Expense Reserve within Loyalty Wealth - Superannuation for payment of the operational expenses of Loyalty Wealth - Superannuation. The Expense Reserve is built up from Loyalty Wealth - Superannuation income (if and when allocated) and taxation benefits, which are generated from the design of Loyalty Wealth - Superannuation and that have been allocated by the Trustee to the Expense Reserve. The funding of the Expense Reserve is not an additional charge to your account.

The difference between the amounts withheld from your account for payment of tax provision for tax and the actual tax payable are credited to the Expense Reserve.

The actual amount of tax paid in Loyalty Wealth - Superannuation is generally less than the 15% that is withheld for tax because of the benefit of tax deductions as well as capital gains discounts and franking credits that reduce the Trustee's effective rate of tax.

The Trustee estimates that operational expenses may be up to 0.45% of the assets of Loyalty Wealth - Superannuation.

Under the administration agreement between the Trustee and the Administrator, the Administrator is entitled to charge an Expense Recovery Fee from Loyalty Wealth - Superannuation for expenses incurred in the operation of the fund.

The Expense Recovery Fee is calculated as a percentage of the average monthly value of the assets of Loyalty Wealth - Superannuation and paid out of the Expense Reserve.

As the Expense Recovery Fee is paid from the Expense Reserve, it is not an additional charge to your account. This arrangement could change pursuant to any amendment to the administration agreement.

Insurance – Individual Retail Policy

If you arrange for individual insurance cover through Loyalty Wealth - Superannuation, the insurance premiums and costs will be deducted from your account in accordance with the payment frequency nominated in your insurance application. You and your Financial Advisor will need to ensure there are sufficient funds available in your account to meet premium payments. You should read the relevant disclosure document for your insurance product to obtain information about the consequences of non-payment or late payment of premiums. An administration fee of \$78.93 will be applied when establishing your insurance policy and an ongoing fee of \$78.93 per annum will be applied during the term of the policy. Should you hold a salary continuance policy, a fee of \$41 will be applied for the administration of each payment made as part of that policy.

Insurance - Group Life Policy

If you choose to take up group life policy through Loyalty Wealth - Superannuation, the premium you pay will depend on your age, gender, occupation, state of health and type of cover you choose. Insurance will be provided for one year initially, with your first monthly premium payable monthly in advance. The premiums will be automatically deducted from your account each month. You and your Financial Advisor will need to ensure there are sufficient funds available in your account to meet premium payments. A period of 60 days will be allowed for receipt of renewal premiums. During this period the insurance will remain in force. Non-payment of premiums within this period due to insufficient balance in your account to cover the premiums will result in the termination of your insurance.

For more information on insurance cover, refer to section 8 (Insurance in your super).

Financial Advisor Remuneration

A Financial Advisor can guide you and assist you in tailoring a portfolio of investments that may help you achieve your investment and retirement objectives. Details of all remuneration, including any commission payable on your insurance cover in the Fund, will be in the Financial Services Guide and advice document given to you by your Financial Advisor. Fee Collection & Disbursement of Financial Planning Fees

The Administrator, can collect the fees from your account and disburse them to the appropriate licensed dealer group in accordance with the agreement you have with your Financial Advisor.

INDIRECT COST RATIO

Cash Account

Under an agreement between the Trustee and the Administrator, investors will receive a crediting rate equal to the minimum of the Reserve Bank of Australia target cash rate (which is the market rate on overnight funds) less 0.5% p.a. The difference between the rate negotiated with the banks and the crediting rate of up to 0.85% will be retained by the Fiducian Group for services it provides in relation to the management of the arrangements for the investment of money held in the Cash Account.

That amount is an indirect cost deducted from the interest earned by Fiducian Group on the pooled cash before the crediting rate for your Cash Account is declared, and is not deducted from your Cash Account.

OTHER FEE RELATED MATTERS

Investment Fees

The investment fees are charged by the managers of the funds in which you direct your investment. These fees range from 0% to 2.36% for funds currently offered through Loyalty Wealth - Superannuation. The investment fee may also include a buy/sell spread, performance fees and indirect cost ratio (see below for more details). This investment fee is calculated and deducted from the unit price by the investment manager. This is not an additional fee charged by Loyalty Wealth - Superannuation.

Details of investment fees vary between investment options and may change from time to time. Those details are available in the relevant disclosure document for each investment option and can be obtained from your Financial Advisor.

Investment Fee – Buy/Sell Spreads (Managed Funds only)

The Trustee does not charge a fee in the form of a buy/sell spread to recover transaction costs incurred by the Trustee in relation to sale or acquisition of assets in Loyalty Wealth - Superannuation. However, each investment option may have its own buy/sell spread. The buy/sell spread is the difference between the entry and exit price for units in the underlying investment option. Details of buy/sell spread (if any) are available in the relevant disclosure document for each investment option and can be obtained from your Financial Advisor.

Investment Fee – Performance Fee

Performance fees may be charged in relation to some investment options. This is in addition to the investment fees the manager may charge. If performance fees are charged, they are payable to the relevant manager of the investment option if certain performance targets are met. This performance fee is calculated and deducted from the unit price by the investment manager.

This is not an additional fee charged by Loyalty Wealth - Superannuation. Details of performance fees (if any) are available in the relevant disclosure document for each investment option and can be obtained from your Financial Advisor.

Investment Fees – Indirect Cost ratio

Each investment option may have its own indirect cost ratio.

You should refer to the relevant disclosure statement for the investment option, available from your Financial Advisor, for more information.

Brokerage will be charged at 0.15% per security traded for all transactions and is deducted from the proceeds or added to the capital cost of the purchase. The difference between the rate negotiated with the brokers and the brokerage charged to your transaction will be retained by the Fiducian Group for services it provides in relation to the administration of the securities traded in the Loyalty Managed Portfolios.

Brokerage

This is to cover the cost of buying and selling securities within the Personal Share Administration Service. Brokerage will be charged at \$22.55 or 0.11% (whichever is greater) per Australian security traded and at \$33.83 or 0.23% (whichever is greater) per International security traded and is deducted from the proceeds or added to the capital cost of the purchase. Brokerage costs for the Personal Share Administration Service vary and will be dependent upon the broker used and volume of securities traded. Your Financial Advisor will explain all brokerage costs to you. A further administration fee of 0.10 % applies to the administration of international listed securities (in addition to the tiered administration fees).

7 How super is taxed

The following section is a summary of the main tax laws that impact superannuation. For more information specific to your own circumstances, you should contact your Financial Advisor, Accountant or go to the Australian Taxation Office (ATO) website www.ato.gov.au.

TAX ON CONTRIBUTIONS

Tax is not payable on Non-Concessional contributions within the contributions caps when they are paid into Loyalty Wealth - Superannuation.

A provision for tax at a rate of 15% is deducted on the following contributions when they are paid into Loyalty Wealth - Superannuation:

- Concessional contributions; and
- Personal contributions for which a tax deduction has been claimed.

Low income individuals are eligible for a Low Income Super Tax Offset (LISTO) of up to \$500. The actual amount received each year is based on the member's adjusted taxable income and the level of Concessional contributions paid during the financial year and is paid in the financial year following the year the contribution was made. For more information specific to your circumstances you should contact your Financial Advisor.

If you are classified as a high income earner, you may need to pay an additional 15% tax on some or all of your contributions. Currently you're considered to be a high income earner if your 'income' is \$250,000 or greater in a financial year. The definition of 'income' for the purposes of this measure includes contributions which have had contributions tax applied to them, unless those contributions are excess concessional contributions.

If you are liable for this tax the ATO will notify you after the end of the financial year. Further information on this Division 293 tax is available on the ATO website at ato.gov.au.

TAX ON EXCESS CONTRIBUTIONS

Concessional and Non-Concessional contributions are subject to Contribution Caps that cover amounts paid to all Superannuation Funds you are a member.

If you exceed a contributions cap, generally additional tax applies as follows:

- Excess concessional contributions are taxed at your marginal tax rate, less a 15% offset for the tax already paid by Loyalty Wealth - Superannuation. Excess concessional contributions not released from super under the relevant release authority also count against your non-concessional contributions cap and if they exceed this cap, may attract tax on the excess non-concessional contributions.
- Excess non-concessional contributions which are not released from super attract tax on the excess non-concessional contributions, resulting in these excess contributions being taxed at the top marginal rate of tax plus Medicare Levy.
- Associated earnings on excess non-concessional contributions which are released from super are taxed at your marginal tax rate, less a 15% offset for the tax already paid by Loyalty Wealth - Superannuation. (The excess non-concessional contributions released are not subject to tax).

TAX ON INVESTMENT EARNINGS

Superannuation investment earnings are taxed at a concessional rate of up to 15%, which is generally less than other forms of investment. The actual amount of tax payable is also affected by imputation credits and other tax credits.

Capital gains tax for investments held for at least 12 months is levied on two thirds of realised gains of 15%, again less than other forms of investment.

Investment earnings and capital gains on monies within an Account Based pension account are not taxed. However your pension account will benefit from any imputation credits. TTR pensions are taxed at a concessional rate up to 15%.

TAX SURPLUS

Where Loyalty Wealth - Superannuation is entitled to a tax deduction which reduces the total amount of tax paid by Loyalty Wealth - Superannuation, the resulting tax surplus may be held in the Expense Reserve and applied to meet expenses reasonably and properly incurred in the management and administration of Loyalty Wealth - Superannuation.

TAXATION OF BENEFITS FROM A TAXED FUND

On attaining age 60 if you are eligible to take a lump-sum benefit or receive a pension payment, no tax is payable on the amount received.

If you are under 60 years of age and if you are eligible to take a lump sum benefit or receive a pension payment then tax may be payable and deducted from the amount received.

In each case there is no tax payable on the tax-free component received, however the taxable component is taxed as follows:

Lump Sum Payments

Age	Rate
Under Preservation Age (where permitted)	Taxed at your marginal tax rate (including the Medicare levy) or 22%, whichever is lower
Attained Preservation Age but under 60	Up to the low rate Cap* of \$245,000: Nil. Amounts in excess are taxed at your marginal tax rate (including the Medicare levy) or 17%, whichever is lower
60 and over	Nil

* \$235,000 for 2023/24. This amount is indexed to AWOTE and rounded to the nearest \$5,000 each year.

Pension Payments

Age	Rate
Under Preservation Age (where permitted)	Taxed at your marginal tax rate (including the Medicare levy)
Attained Preservation Age but under 60	Taxed at your marginal tax rate (including the Medicare levy) less a 15% tax offset
60 and over	Nil

DISABLEMENT PAYMENTS

In the event of Total and Permanent Disablement eligible members have the option of receiving the benefit as a lump sum or a superannuation pension.

If the lump-sum option is selected the tax-free component is increased proportionally, based on the number of years until you reach age 65. The remaining amount is taxed based on the rates applicable for a lump-sum payment.

Where the superannuation pension option is selected, no tax will be payable on the tax-free component but the taxable component will be taxed based on the rates applicable for pension payments.

In cases where the benefit payment relates to a salary continuance claim, any amount received will be taxed at your marginal tax rate.

For more information please contact your Financial Advisor or go to www.ato.gov.au.

DEATH BENEFIT AMOUNTS

In the event of Death where the benefit is paid to a tax dependant an eligible beneficiary has the option of receiving the benefit as a lump sum or a superannuation pension.

If the pension option is selected and either the original member was aged 60 or over or the eligible beneficiary is aged 60 or over then the pension payments will be tax-free. Where neither attained age 60 then no tax will be payable on the tax-free component but the taxable component will be taxed at beneficiary's Marginal Tax Rate with a 15% tax rebate available until they attain age 60.

Super pension is not available where the benefit is paid to a non-Tax Dependant. The beneficiary may only receive the benefit as a lump sum in that case.

Where the lump-sum option is selected, no tax will be payable if the benefit is paid to an eligible Tax Dependent. However where the benefit is paid to an eligible beneficiary who is not a Tax Dependant then the benefit will be taxed as follows:

Tax Component	Rate
Tax-free	Nil
Taxable - Taxed*	15%
- Un-taxed*	30%

*Plus Medicare Levy

For more information please contact your Financial Advisor or go to www.ato.gov.au, "Individuals Superannuation – home".

TAX DEDUCTIONS

Concessional Contributions made by an employer are fully tax deductible to the employer.

Personal Contributions may also be tax deductible. In order to claim a deduction you must complete a "Notice of intent".

SPOUSE CONTRIBUTION OFFSET

Contributions made by a person on behalf of an eligible spouse may allow you to claim a tax offset of up to \$540 where your spouse's assessable income plus reportable fringe benefits is less than \$40,000 p.a.

TAKING A CASH LUMP SUM AS A RESULT OF A TERMINAL MEDICAL CONDITION

A super lump-sum payment is tax free if you suffer from a terminal medical condition.

INDIVIDUAL RETAIL POLICIES

Individual Retail policies are issued by the Insurer and are subject to the terms and conditions of the particular policies taken out by the Trustee on behalf of each individual member. Under an Individual Retail policy, the Trustee purchases an individual policy on your behalf, with each policy held by the Trustee.

You may be able to purchase additional insurance policies available from TAL that are offered outside of Loyalty Wealth - Superannuation under separate or linked policies issued in your name. These policies will be held and paid for by you directly rather than by the Trustee on your behalf.

For more information regarding any particular Individual Retail policy option please refer to your Financial Advisor and the product disclosure statement issued by TAL.

Payment of Benefits

Under an Individual Retail policy, if you satisfy the conditions for the payment of an insured benefit, the benefit will be paid to the Trustee of Loyalty Wealth - Superannuation. For example, under the terms of a life insurance policy, if you die or become totally and permanently disabled, the Trustee will be paid a lump sum. Under the terms of an income protection policy the Trustee will be paid the income payments from TAL.

How to Apply for an Individual Retail Policy

Applications are made through an authorised Financial Advisor. Your Financial Advisor will provide you with a quotation detailing the terms and cost of the policy you wish to purchase, and will assist you with the application process.

You will first need to read the Loyalty Wealth - Superannuation PDS as well as the PDS of the relevant insurance product. You then need to, with the assistance of your Financial Advisor, complete and submit the insurance application.

Premium Payment for Individual Retail Policies

TAL will request premium payments from Loyalty Wealth - Superannuation in accordance with the payment frequency nominated in your insurance application. Premium payments will be made from your Cash Account.

You and your Financial Advisor will need to ensure that there are sufficient funds available in your Cash Account to meet premium payments. You should read the PDS for the insurance product to obtain information about the consequences of non-payment or late payment of premiums.

TAL is not responsible for the production of this Additional Information booklet and does not accept any liability for any inconsistencies between the products described in this Additional Information booklet and the policy terms as between TAL and the Trustee.

TAL is the Insurer under the group insurance policies and no insured benefit will be paid by us unless TAL accepts the claim. Insurance under the group insurance policies is provided within the Insurer's No. Statutory Fund No. 1 Statutory Fund

Transferring Your Individual Retail Policy

If you close your account in Loyalty Wealth - Superannuation you may be able to transfer your Individual Retail policy to your own name or to another superannuation fund and retain your cover. You should discuss this with your Financial Advisor or contact your new superannuation fund prior to the closure of your existing account. In either event, if cover is to continue you will become responsible for the payment of premiums.

If on the closure of your account in Loyalty Wealth - Superannuation you do not transfer the cover the policy will lapse.

Fees and Financial Advisor Remuneration

Your Financial Advisor may receive remuneration from the 'Insurer' in relation to any Individual Retail policy. This remuneration is disclosed in the PDS for the relevant insurance product.

GROUP INSURANCE

The Insurer is TAL Life Limited, ABN 70 050 109 450, AFSL 237848, under a Master Policy taken out by the Trustee. Please note that the terms and conditions of the Trustee's Master Policy with TAL will prevail over any information in the PDS and this document related to TAL's provision of insured benefits.

Death & Disablement Insurance

The benefits of yearly renewable life insurance are available to you as a Member of Loyalty Wealth - Superannuation.

The insurance provides financial protection for your family or business. It does this by paying a lump sum in the event of your death or on diagnosis of Terminal Illness. The main benefit of this insurance is assisting your family or business to meet debts such as mortgages, leases and overdrafts, and living expenses in the event of the loss of your income.

In addition, you can take out cover to insure against the loss of income incurred if you became Totally or Partially Disabled and unable to work due to sickness or injury.

The cover protects you 24 hours a day, anywhere in the world, subject to terms and conditions in the Master Policy.

Premiums

The premium you need to pay will depend on your age, gender, occupation, state of health, and the type of cover you choose. Insurance is provided initially for one year, with your first monthly premium payable monthly in advance. The annual renewal date is 1 September. Each year on the annual renewal date your monthly premium will be adjusted in accordance with the premium rate applicable to your age at that date. Your premiums will be automatically debited from your Member Account each month.

A period of 60 days will be allowed for receipt of renewal premiums. During this period the insurance will remain in force. Non-payment of premiums within this period due to insufficient balance in your account to cover the premiums will result in the termination of your insurance.

Variation of Premium Rates

Premium rates are not guaranteed and can vary as a result of claims experience. You will receive written notice of any such variation which would take effect at the next annual renewal date. A variation will only be made where it applies to all similar policies issued, and will not be limited to individual policies.

Guaranteed Renewal

Regardless of any deterioration in your health, the Insurer guarantees to renew your insurance cover each year (until it ceases when you reach age 70 for Death cover and age 65 for Total and Permanent Disablement cover), so long as the appropriate premiums are paid when they fall due and so long as you remain a Member of Loyalty Wealth - Superannuation.

BENEFITS

Death and Terminal Illness Benefit

The Insurer will pay the agreed lump sum benefit in the event of your death or upon your diagnosis of a Terminal Illness where two medical practitioners (one of which is a specialist practicing in an area related to the illness or injury suffered by you, nominated by the Insurer) have certified, jointly or separately, that you suffer from an illness, or have incurred an injury, that is likely to result in your death within a period (the certification period) that ends not more than 12 months after the date of the certification and for each of the certificates, the certification period has not ended. The maximum Death benefit available is \$5,000,000, with a maximum Terminal Illness benefit of \$2,500,000. The balance of any benefit will be payable on death provided fund membership is maintained and you continue to meet the terms and conditions of the Master Policy.

Total and Permanent Disablement Option

You can choose to enhance your cover by selecting the Total and Permanent Disablement (TPD) Option.

This option provides you with a lump sum payment if you become Totally and Permanently Disabled due to sickness or injury. The TPD cover you choose must be equal to, or less than, your selected cover for death, up to a maximum of \$2,500,000.

Should TPD cover be selected, your lump sum TPD Benefit will be payable based upon the satisfaction of one of the TPD definitions depending upon your employment status as set out below:

- Insured Persons working 15 hours or more per week – Standard;
- Insured Persons working less than 15 hours per week – Activities of Daily Living;
- Contractors working 15 hours or more per week across all contracts and earning a minimum of \$16,000 per annum – Standard; or
- Contractors working less than 15 hours per week, Casuals, Unemployed persons and Non-working Spouses – Activities of Daily Living.

Standard

Total and Permanent Disablement/Totally and Permanently Disabled means that the Insurer is satisfied that whilst an Insured Person, the Insured Person has:

- i) suffered total and irrecoverable loss of the:
 - use of two limbs or,
 - sight of both eyes or,
 - sight of one eye and the loss of the use of one whole hand, or whole foot, or
- ii) the Insured Person has been absent from employment due to illness or injury for a continuous period of 6 months and in the Insurer's opinion is so disabled that he or she will never be able to perform his or her own occupation or any other occupation for which the Insured Person is reasonably suited by education, training or experience.

Activities of Daily Living

Total and Permanent Disablement means that the Insurer is satisfied that whilst an Insured Person, the Insured Person has become so disabled by bodily injury or illness that he or she will never be able to perform at least two (2) of the following activities of daily living:

- Dressing – the ability to put on and take off clothing without assistance
- Bathing – the ability to wash or shower without assistance
- Toileting – the ability to use the toilet including getting on and off without assistance
- Mobility – the ability to get in and out of bed and a chair without assistance
- Feeding – the ability to get food from a plate, into the mouth without assistance

where 'assistance' means the assistance of another person.

If your selected TPD cover is less than your cover for death, your Death cover will be reduced by any benefit paid for your Total and Permanent Disablement and the remainder will be paid upon your death. Your Death cover will also be reduced by any benefit paid for Terminal Illness. Premiums will be reduced to reflect the lower level of cover.

Payment of Benefits

In the event that a Death, Terminal Illness or TPD Benefit becomes payable, the benefit is payable in addition to any other accrued entitlements you have under Loyalty Wealth - Superannuation. The Insurer pays the insured benefit to the Trustee, who will then pass on the benefit to you, your dependants or legal personal representative, subject to Loyalty Wealth - Superannuation's Trust Deed and legislation.

The Trust Deed provides that death benefits shall be paid to any valid nominated beneficiary or beneficiaries, and if none, to your legal personal representative (executor or administrator). You should ensure that any nomination of beneficiary that you make is kept up to date with changing circumstances. In any event, such nominations are required by law to be renewed each 3 years.

Where a Terminal Illness Benefit has been paid or is payable, the TPD Benefit will be reduced by the amount of the Terminal Illness Benefit. Where a TPD Benefit is paid and is equal to the Death Benefit sum insured, it will discharge all the Insurer's obligations under the Master Policy and no further benefits of any kind shall be payable.

Exclusions

There will be no entitlement to an insured benefit:

- for Death in the event of suicide within 13 months of the commencement or reinstatement date of the insurance;
- for Terminal Illness or Total and Permanent Disablement Benefit if the illness or injury arises from self-inflicted injury (or attempt at suicide at any time after commencement or reinstatement of the insurance); and
- if it is due an exclusion as the Insurer may apply to an Insured Person as a condition of acceptance of cover.

TO MAKE A CLAIM

To make a claim contact your Financial Advisor or Client Services on 1800 653 263. If you make a claim under the Master Policy, the Insurer may collect information to assess the validity of the claim. This may involve the collection of personal information and relevant health information.

TAXATION

Premiums may be tax deductible where the insurance is for business purposes, or where the Master Policy is owned by a superannuation trustee. In these circumstances benefit payments may be assessable. Under most other circumstances lump sum payments to individuals are not assessable for income tax purposes and premiums are not tax deductible.

These laws may change, and as individual circumstances may differ, you should seek advice from a suitably qualified professional in relation to your particular circumstances.

GST does not apply to your premiums for the covers described herein. If Parliament alters the tax law, the Insurer reserves the right to increase premiums or charges to reflect any applicable GST.

INFORMATION ON YOUR INSURANCE

When your application for insurance is accepted, a Policy Schedule will be sent to you detailing the cover selected. Please ensure that these documents are read carefully in conjunction with this PDS.

If you have any questions or complaints concerning your insurance, please contact Client Services on 1800 653 263 to discuss the matter. You may also wish to write to the Trustee, GPO Box 4175, Sydney NSW 2001.

If you are not satisfied with our response you can contact the Australian Financial Complaints Authority (AFCA) who will then investigate the matter with you. AFCA is an independent and impartial body. Its telephone number is 1800 931 678 from anywhere in Australia.

COOLING OFF PERIOD

After you receive the Policy Schedule you have 28 days to check that the insurance meets your needs – this is known as the Cooling Off Period. During this period you may cancel your insurance by written request to the Insurer. Upon cancellation, you will receive back into your account any money you have paid and you will not pay any charges.

YOUR DUTY OF DISCLOSURE

Before you enter into a contract of life insurance with an insurer, you have a duty under the Insurance Contracts Act 1984 to disclose to the insurer every matter that you know, or could reasonably be expected to know, is relevant to the insurer's decision whether to accept the risk of insurance and, if so, on what terms. You have the same duty to disclose those matters to the insurer before you extend, vary or reinstate a contract of insurance.

Consequences of non-disclosure

If you fail to comply with your duty of disclosure and the insurer would not have entered into the contract on any terms if the failure had not occurred, the insurer may avoid the contract within three years of entering into it. If your non-disclosure is fraudulent, the insurer may avoid the contract at any time. An insurer who is entitled to avoid a contract of insurance may, within three years of entering into it, elect not to avoid it but reduce the sum that you have been insured for in accordance with a formula that takes into account the contribution that would have been payable if you had disclosed all relevant matters to the insurer.

- a) to comply with any requirements of, or
- b) as a result of a change to, any relevant laws (or their interpretation) or the policies and ruling of the Commissioner of Taxation, ASIC, APRA or any other Statutory Authority.

Where the Insurer is required by relevant laws to pay any taxes, levies, duties or charges to the Commissioner of Taxation or any other Government Authority in relation to your premium contribution, it is entitled at its discretion to deduct this amount from any premiums paid by you or from any benefits payable by it. Alternatively the Insurer may obtain payment from you separately.

Information Requirements

The Insurer may request additional information or tests in relation to your health and medical history. You will be provided with the necessary forms and the Insurer will meet the cost of any medical examination it may request. The Insurer may also request details of your financial situation in the event of requests for large amounts of cover.

Notification

The Insurer will notify Loyalty Wealth - Superannuation (who will in turn notify you) of your acceptance for cover, or of any non-standard acceptance terms, based on the health and other evidence you supply.

For example, the amount of cover may be restricted and/or an increased premium quoted. On confirmation of your acceptance by the Insurer, your cover will commence subject to premiums being paid from your account.

How to Apply

Applications can only be made by completion of a TAL Member's Personal Statement. Your Financial Advisor will assist you with the details.

Change of Insurer

The Trustee may change to another insurer. If this happens, the Trustee or your Financial Advisor will notify you of the change and will also tell you of any alteration to your insurance premium. You will not have to do anything, as your insurance will be automatically transferred to the new insurer.

A decision to change the insurer may be made by the Trustee for any reason such as to facilitate administrative expediency or if the Trustee is able to work more efficiently with another insurer.

Your insurance cover under any new arrangement will not be less than your existing cover through the current insurer. However, the Trustee gives no guarantee that the premiums will be the same or lower than what you currently pay. If arrangements are entered into with a new insurer, premiums will continue to be deducted from your account in the normal course of processing unless you advise us that you wish to cancel your insurance cover.

SALARY CONTINUANCE INSURANCE

The benefits of Salary Continuance insurance are available to you as a Member of Loyalty Wealth - Superannuation. Insured Members can select a benefit payment period of two years, or until they reach age 65. Benefits are only payable following a Waiting Period if an Insured Member is Totally Disabled and unable to work due to sickness or injury as defined.

In all cases cover will cease at age 65.

Eligibility

You must be permanently employed to work 15 or more hours per week to be eligible for Salary Continuance cover. You must be an Australian Resident and between 15 and 64 years of age.

Salary Continuance insurance is not available for non-working spouse Members and Members working less than 15 hours per week.

Please note: Certain hazardous occupations may not be eligible for cover. For more information, please contact Client Services on 1800 653 263.

You will be required to provide evidence of health to the Insurer prior to acceptance for insurance. Other evidence such as financial evidence may also be required.

Benefit Options

You have a choice of three Waiting Periods, ie. 30, 60 or 90 days.

The benefit will be limited to a maximum of 75% of Earned Income plus 10% of Earned Income as Superannuation Contribution Benefit subject to a maximum of \$20,000 per Member per month, whichever is the lesser. You may select a benefit payment period of 2 years or to age 65.

For insurance purposes, 'Earned Income' means:

a) Employed Persons

The annual wages or salary last agreed between the Employer and the Insured Person immediately before commencement of Total Disability, plus, the actual commissions paid by the Employer in the twelve month period immediately before commencement of Total Disability;

OR

The annual wages or salary last agreed between the Employer and the Insured Person immediately before commencement of Total Disability, plus:

- the actual commissions paid by the Employer in the twelve month period immediately before commencement of Total Disability; and
- all other regular payments or benefits provided to the Insured Person, by the Employer in the twelve month period immediately before commencement of Total Disability, which when combined with the above, we reasonably consider as the Insured Person's remuneration package. (For the purpose of calculation of a benefit, Earned Income will not include Superannuation Guarantee Contributions).

OR

b) Self Employed Persons

The annual income generated by the Insured Person as a result of his or her personal exertion, calculated by averaging the Insured Person's net income per year for the two years immediately preceding commencement of Total Disability.

For the purposes of this definition net income means the Insured Person's gross income less all expenses incurred by the Insured Person in connection with earning that income; and in any event each of these definitions is subject to the terms of the Master Policy.

INTERIM ACCIDENT COVER

Prior to acceptance by the Insurer of an application for insurance, they will provide Interim Disability Benefit where disability results directly from an Accident, which occurred after the Insurer receives your fully completed Personal Statement and before the earliest of:

- a) the Personal Statement is withdrawn;
- b) the cover is cancelled by the Insurer;
- c) the Insurer rejects the cover applied for;
- d) the Insurer accepts the cover applied for, conditionally or unconditionally; or
- e) 90 days has passed since the Insurer received the fully completed Personal Statement.

If, as a result of an Accident, the Insured Person has a continuous period of Total Disability for longer than the Waiting Period, a Benefit is payable from the first day after the Waiting Period until the earliest of:

- a) the first day upon which, in the Insurer's reasonable opinion, you are no longer Totally Disabled or Partially Disabled;
- b) the date you reach age 65;
- c) the date of your death; and
- d) the end of the Benefit Period applicable to you.

If a Benefit becomes payable, the Insurer will pay the lesser of:

- a) \$10,000 per month; or
- b) the Benefit proposed for you.

For these purposes, an Accident is a violent, external and visible event that occurs while the cover is in force.

Exclusions

- a) intentional self-inflicted injury or attempt at suicide;
- b) uncomplicated pregnancy or childbirth;

- b) the date you reach age 65;
- c) the date of your death; or
- d) the end of the Benefit Period applicable to you.

If, during the Waiting Period, you return to gainful employment for five days or less, then those days for which you were gainfully employed will be added to the Waiting Period.

PARTIAL DISABLEMENT BENEFITS

- b) immediately upon ceasing to be Totally Disabled.

Subject to the definition of Partial Disablement, the Insurer will pay a proportionate benefit equal to the insured percentage of the loss of monthly income. The proportionate benefit will be payable for the period that you are Partially Disabled during the benefit period.

TAXATION OF BENEFITS

Any payments you receive under the Master Policy will form part of your assessable income. Therefore, Pay As You Go ('PAYG') income tax may be deducted from the payment made to you.

RECURRENT CLAIMS

If, within six months after the date a benefit payment ceases, you again become Totally Disabled or Partially Disabled due to the same or related Injury or Illness, the Waiting Period will be waived and the Insurer will regard it as a continuation of the previous claim.

COVER WHILST ON LEAVE WITHOUT PAY

You may continue to be covered for a period of up to 12 months from the date you commence employer approved unpaid maternity/paternity leave without obtaining written approval from the Insurer.

You may continue to be covered for a period of up to 12 months from the date you take employer approved unpaid leave for reasons of study or holidays/travel, provided the Insurer gives written approval for this to occur prior to the commencement of such leave.

CHANGES TO GROUP INSURANCE POLICY – INACTIVE MEMBERS

The Federal Government has introduced new legislation designed at protecting retirement savings from being eroded by insurance premiums. One of the key changes will remove insurance cover on accounts which have been inactive for 16 months or more, regardless of balance - unless the member instructs the Trustee to keep their insurance cover.

An account is inactive if a contribution or rollover has not been received for a continuous 16-month period. You will be advised in writing in the event that your cover ceases.

If you require cover in the future you will be required to undergo the full application process.
